

# exit

## Senior Designer

Position Reports to: Studio Director  
Start Date: as soon as possible

### **Our Organization**

Exit Design is an environmental graphic design and planning firm that designs connections between people, information, and environments. Based in Northern Liberties, Philadelphia, Exit helps organizations all over the country advance their missions by creating communication in the built environment that facilitates ease of navigation and promotes place-based branding. With a deep understanding of how people experience places, our creative multidisciplinary team is passionate about strategically creating transformative experiences. For more information about Exit Design, please [click here](#).

### **The Opportunity**

As a member of the design team at Exit Design, the Senior Designer is a part of a team of multi-disciplinary designers. This position works closely with the team to lead and nurture designers, formulate design concepts and narratives, lead and participate in the ideation and conceptualization of 2D and 3D design solutions, direct the documentation of designs for production, and assist in the oversight of project implementation. We're looking for someone who inspires trust and confidence in their teammates and clients, is detail-oriented, and is a clear communicator. This person should have strong ideation skills, be a critical thinker, demonstrate strategic design thinking, and be self-motivated. The ideal candidate should have experience working on projects involving multiple disciplines and can take direction from multiple people and prioritize tasks. This role is a full-time, hybrid position that requires the candidate to be available to work out of our Philadelphia office, with some travel to project sites.

### **What You Will Accomplish**

- Collaborate on developing conceptual design ideas, detail studies, and sketches as ideas evolve.
- Develop design to coordinate with wayfinding methodology and programming.
- Iterate studies to evaluate design with the functional needs of the system.
- Deliver visualizations that effectively communicate the project concepts through hand sketching, photo rendering, 3D modeling, etc.

# exit

- Lead and participate in internal design sessions and critiques.
- Lead and participate in client reviews and work sessions and collaborate and interface with project stakeholders and partners.
- Demonstrate studio/team leadership.

### Who Should Apply

- You have experience in graphic design, industrial design, interior design, and/or architecture.
- You are interested in working in the built environment and conceptualizing and ideating 3D and 2D solutions.
- You have an appreciation for and understand elegant design and demonstrate an understanding of grids and proportions.
- You have experience conceptualizing and building design systems, specifically signage systems.
- You understand and demonstrate a refined aesthetic of detailing.
- You are detail-oriented and self-motivated with strong conceptual thinking.
- You appreciate design process and are skilled at leading a team through it.
- You are strong at ideating a concept and can iterate through concepts as they develop.
- You have a strong work ethic with the ability to manage the creative process.
- You thrive working on multiple projects, can take direction from multiple people, and can prioritize tasks accordingly.
- You have excellent written and verbal communication skills.
- You develop relationships and earn the trust of clients, partners, and colleagues.
- You have excellent organizational skills and attention to detail and get excited for the opportunity to build better systems as we grow and evolve.
- You are proficient in Google Suite, Adobe Creative Suite, and Sketchup. Revit and BIM knowledge is a plus.

### Salary Range

\$70,000 - \$100,000
